Dear Sirs,

June 15<sup>th</sup>, 2005

As I already spoke to you I request that you respond to me in regards to the talk around the "SHU" about this so called 1 year program. I've never seen any memorandum or program statement attachment about such a program especially since this "1 year program" acts as a secondary punishment after DMC Sanctions<sup>you</sup> which acts and start upon completion of your DS time.

I along with other inmates got swept for an alleged food strike in which I received an incident report which I intend to challenge due to the incorrect report in the incident report. This housing us in overcrowded ~~Rooms~~<sup>Cells</sup> as we have been for over 3 months with three people per ~~Room~~<sup>Cell</sup> when for the last two months there has not been any institutional problems that can lead to a 3 man exception is not warranted. This Segregation is hot, the ~~Rooms~~<sup>Cells</sup> carry <sup>Hot</sup> recycled air and having to in any case spend extra months due to this program causes conflict.

Exhibit J
